Submitted Sep 28 at 7:34pm

This attempt took 8 minutes.

Unanswered

#### Question 1

0 / 2 pts

Create an integer variable named `age` and assign it the value `21`.

You Answered

Correct Answers

```
int age = 21;
```

Unanswered

#### Question 2

0 / 2 pts

Assume you have a variable called `numberOfStudents` and it has already been assigned a value.  
Create an integer variable named `numberOfTests` and assign it the value of `10 times numberOfStudents`.
